INDEX

ABYSSINIA, Dr. Gerard Rohlf's journey in, 249
Academical Study, Biology as an, Prof. T. Jeffery Parker, 543, 573
Acton, Occurrence of Neolithic Implements at, Spencer G. Perceval 101, 260; Worthington G. Smith, 141
Acoustic Phenomenon noticed in a Crooke's Tube, C. R. Cross, 45
Acoustics, the Student's Handbook of, John Broadhouse, 580
Actineæ, Freshwater, Capt. W. Sedgwick, 189
Adams (Prof. W. Grylls, F.R.S.), Sound of the Aurora, 29
Æcidiomycetes, Spermogonia of, 592
Africa: Mittheilungen of the German African Society, 19; Pére Law's Expedition, 19; Dr. Holub's African Travels, 35, 58; the Sand Dunes of the Sahara, 67; F. C. Selous' Exploration of, 114; the Government of Uganda, 114; African Explora; tion, 149; Civilisation and Barbarism in South Africa, 227; the Baptist Congo Expedition, 250; to the Central Lakes and back, &c., J. Thomson, 353; Afrika im Lichte unserer Tage Bodengestalt und geologischer Bau, Josef Chavanne, 581; How I Crossed Africa, Major Serpa Pinto, 215
Agassiz (Prof. Alex.), Polydonia frondosa, 509
Agram, Earthquake Shock at, 202, 611
Albert Institute, Windsor, 87
Alford Weaver-Botanist, the, John Duncan, 6; Death of, 361
Algæ, Notes on, 169; On some New Lower Green, 292;
Algiers, French Association for the Advancement of Science at, G. F. Rodwell, 31
Algol, Minima of, 542
Allen (Grant), "Evolutionist at Large," 27; "Anglo Saxon Britain," 566
Allen (Capt. J. Allen), Singular Case of Shipwreck, 106; Luminous Phenomena on Rupture of Sea Ice, 459
Allman (Prof.), on the Development of the Ctenophora, 117
Alluvion, Sea-Shore, 286
Alpine Club, the Italian, 295
Alpine Congress, International, 246
Alpine Tunnel, Proposed New, 427
America: Proposed Meeting of the British Association in 1883, 16; American Naturalist, 45, 134, 158, 376, 479; American Journal of Science, 70, 134, 479, 600; American Meteorological Observations, W. B. Hazen, 189; American Cretaceous Flora, Prof. J. S. Newberry, 191; J. S. Gardner, 531; American Association for the Advancement of Science, Meeting of, at Cincinnati, Ohio, 146, 245; Prof. E. W. Claypole, 486; American Journalism, 265; American Degrees, 455 (*see also* United States, &c.
Anchor Ice, 301
Ancient Star positions, 520
Anderson (Wm.), the Hardening and Tempering of Steel, 21
Anderson (Tempest, M.D.), Prismatic Optometer, 618
Anemometer, a New Integrating, 467; Chas. E. Burton, 510, 582; H. S. Hele Shaw, 557
Anemometers, Whirled, Prof. G. G. Stokes, 250
"Anglo-Saxon Britain," Grant Allen, 566
Animal Instinct, Dr. W. B. Kesteven, 381
Animal Motion, Prof. J. Burdon-Sanderson, F.R.S., on Discoveries relating to, 439
Animal Life, Miscellanies of, Elizabeth Spooner, 566
Annalen der Physik und Chemie, 70, 134, 376, 400, 480, 600
Anthropology: Anthropological Institute, 47, 135, 232; Discovery of Implements near Thebes, 108; Transactions of the Washington Society of, 110; Anthropological and Anatomical Researches in Melanesia and Australia, Dr. Miklucho Maclay's, 157; "Anthropology," Edward B. Tylor, F.R.S., Alfred R. Wallace, 242; Meeting of German Anthropologists at Ratisbon, 426; Meeting of Austrian Anthropologists at Salzburg, 426
Ants, Sound-producing, Henry O. Forbes, 101; S. E. Peal, 484; Observations on the Habits of, Sir J. Lubbock, F.R.S., 142
Aquatic Hymenopterous Insect, Edwin Postock, 556
Arabia, Gleanings from the Desert of, Major R. D. Upton, Prof. W. Robertson Smith, 209
Archæology, Proposed American Institute of, 176
Archæological Discovery near Sewersk, Southern Russia, 541
Archæological Congress at Tiflis, 599
Archer (Surgeon-Major H.), Medusæ, 307
Archer (W., F.R.S.), Public Libraries, 386
Archives des Sciences Physiques et Naturelles, 94, 134, 278, 400, 600
Arctic (Dutch) Expedition, Zoology of the, 57
Arctic Echinodermata, P. Martin Duncan, F.R.S., and W. Percy Sladen, 97
Arctic Regions: the International Polar Commission, 113
Arctic Exploration: the *Polaris* Expedition, Dr. Emil Bessels, 194
Argentine Republic, Description Physique de la, d'après des observations personnelles et étrangères, par le Dr. H. Burmeister, 209
Argyll (Duke of), Struggle of Parts in the Organism, 581
Arlberg Tunnel, Boring of the, 291
Armstrong (Sir W., F.R.S.), Opening Address in Section G at the British Association Meeting, 448
Artificial Flight, Fred. W. Brearey, 466
Ascidians, Hypophysis in, 66, 591; Hypophysal Gland in, W. A. Herdman, 68
Ashton-under-Lyne Linnean Botanical Society, 566
Asia and Europe, Unexplored Parts of, 312
Astrolabe Gulf, 149
Astronomy: Astronomical Column, 18, 40, 65, 110, 177, 248, 277, 291, 342, 375, 425, 477, 520, 541, 591, 612; Astronomy for Amateurs, Cycle of Celestial Objects, Admiral W. H. Smyth, 234; Astronomical Congress at Strassburg, 246; Astronomische Nachrichten, 66
Athens Archæological Society, 341
Atkinson (Prof. R. W.), Brewing in Japan, 509
Atlantic Cable, New, Messrs. Siemens, 245
Atlas-Geography, A. H. Macdonell, 556
Atomic Theory, Prof. A. W. Williamson, F.R.S., on the Growth of, 413
Atoms, Dr. Henry Muirhead, 459
Atti della R. Accademia dei Lincei, 46, 134, 206, 278, 400
Atti della R. Accademia delle Scienze Fisiche e Matermatiche Napoli, 118
Aurora, Sound of the, 109; Dr. John W. Ogle, 5; Mrs. E. Hubbard, 5; Prof. W. Grylls Adams, F.R.S., 29; F. C. Constable, 53
Auroral and Magnetic Observations in High Latitudes, H. R. Procter, 241
Auroric Light, G. H. Kinahan, 142
Australia, Water in, F. J. Mott, 30
Australia and Melanesia, Anthropological and Anatomical Researches in, Dr. Miklucho Maclay's, 157
Australian Cycadaceous Stem at Kew Gardens, 425
Australian Aborigines: the Languages and Customs of several Tribes of Aborigines in the Western District of Victoria, Australia, James Dawson, Edw. B. Tylor, F.R.S., 529
Aveling (Edward B.), the Student's Darwin, Geo. J. Romanes, F.R.S., 429
Axolotl, Colour Change of, 388

Baer (Karl Ernst von), the Proposed Monument to, 108
Bakmut discovery of Rock Salt at, 541
Ball (John), the Florence Herbarium, 78
Ball (Prof. R. S., F.R.S.), the Distances of the Stars, 91
Ball (V.), Diamonds, Coal, and Gold of India, 579
Balloon Ascent by W. de Fonvielle, 225
Balloons: Double, Curious Experiment with, at La Villette Gasworks, Paris, 541, 566; Comets and, W. de Fonvielle, 381
Bangor, Maine, U.S., Earthquake at, 314
Banyuls-sur-Mer, New Zoological Station at, 610

Barbarism and Civilisation in South Africa, 227
Barfoed's (Dr. Chr. Th.) Lehrbuch der organischen qualitativen Analyse, 4
Barley Crops and Manures, 470
Barometer Pumps, James Johnstone, 79
Barometric Gradient and Wind, Rev. W. Clement Ley, 8
Barrett (Prof. W. F.), Mind-Reading *versus* Muscle-Reading, 212, 236
Bashforth (Rev. F.), Tide-Predicting Machines, 53
Bedford College, Education at, 131
Bees, Humble-, Bisected, T. Masheder, 335; Prof. Thos. McK. Hughes, F.R.S., 357; Edward Parfitt, 357
Belfast Naturalist Field Club, 40
Belgian Academy of Sciences, Prize programme for 1882, 147
Bell (Prof. Alexander Graham), Production of Sound by Radiant Energy, 42; upon a Modification of Wheatstone's Microphone and its Applicability to Radiophonic Researches, 302
Beltrame (Prof. G), Work on the Denka Language, 314
Bengal Asiatic Society, 88
Ben Nevis Observatory, 131, 201
Benzine, New Derivative of, 111
Berlin Geographical Society, 88; Zeitschrift, 364; Verhandlungen, 364
Bernays (Dr. Jakob), Death of, 148
"Berries and Heaths of Rannoch," 355
Berwickshire Naturalists' Club, 226
Bessels' (Dr. Emil) Account of the *Polaris* Expedition, H. N, Moseley, F.R.S., 194
Bettany (G. T.), First Lessons in Practical Botany, 235
Bible and Science, T. Lauder Brunton, F.R.S., Geo. J. Romanes, F.R.S., 332
Bibliography, Meteorological, A. Ramsay, 53
Biela's Comet in 1805, 178
Billing (Dr. Archibald, F.R.S.), the Death of, 455
Biology. Biological Notes, 66, 202, 292, 388, 591; Studies in Biology for New Zealand Students, F. W. Hutton, 188; Biological Station at Watson's Bay, 313; the Connection of the Biological Sciences with Medicine, Prof. T. H. Huxley, 342; Biology as an Academical Study, Prof. T. Jeffery Parker, 543, 573
Bird (Chas.), Short Sketch of the Geology of Yorkshire, Geological Map of Yorkshire, 458
Birds of Ceylon, Capt. Vincent Legge, 3; a List of European Birds, Henry E. Dresser; Birds Singing during Thunder, J. Shaw, 101; Birds suffering from Cold, J. V. Sládek, 165; British Museum Catalogue of Birds, 239; Migration of, W. G. D. Scott, 274; Birds of the Solomon Islands, 277; Descent of Birds, W. A. Forbes, 380
Birdwood (Dr. G. C. M.), Honour of Knighthood conferred on, 475
Birmingham Natural History Society, 40, 264
Birmingham Philosophical Society, 610
Birmingham (J.), Probably New and Variable Red Star, 164; Notes of the Cuckoo, 165; New Red Variable, 285; Jupiter, 285; the Comet, 308; Red Stars, 532
Bisected Humble-Bees, T. Masheder, 335; Prof. Thos. McK. Hughes, F.R.S., 357; Edward Parfitt, 357
Bishop (W. I.), *Re*, Thomson Whyte, 211; Dr. W. B. Carpenter, F.R.S., 188; and Dr. W. B. Carpenter, Geo. J. Romanes, F.R.S., 211
Blackwall (John), Death of, 86
Bleuler (E.), and K. Schmann, Zwangsmässige Lichtempfindungen durch Schall und verwandte Erscheinungen auf dem Gebiete der Anderen Sinnesempfindungen, 51
Blood of Insects, 388
Blyth (Edward), Natural History of the Cranes, 77
Boat, Curious, 567
Boddy (Evans Marlett), History of Salt, 123
Bodies, Buoyancy of, in Water, Dr. John Rae, F.R.S., 191; Dr. W. Curran, 166
Bolton's Microscopical Specimens, 147
Bombay Rainfall and Nile Floods, Morgan Brierley, 532
Bonney (Prof. T. G., F.R.S.), Geologist's Notes on the Royal Academy, 85; the Life, and Selections from the Correspondence of William Whewell, D.D., by Mrs. Stair Douglas, 147
Boutelle (Clarence M.), Optical Illusion, 191
"Book of the Beginnings," Gerald Massey, 49
Boracite, Experiments on, 112
Bordeaux, Phylloxera, Congress at, 565; Major General Maitland, 589
Boston (U.S.), Society of Natural History, 88
Botany: Text-Book of Indian Botany, Morphological, Physiological, and Systematic, W. H. Gregg, 188; Easy Lessons in Botany, according to the requirements of the Revised Code, 1880, 210; Popular Papers on the Phenomena of Plant Life, 210; First Lessons in Practical, G. T. Bettany, 235; Botany for Schools and Science Classes, W. J. Browne, 235; Practical Botany for Elementary Students, D. Houston, 283
Brain: a Journal of Neurology, 46
Brearey (Fred. W.), on Artificial Flight, 466
Brewing in Japan, Prof. R. W. Atkinson, 509
Brierley (Morgan), Bombay Rainfall and Nile Floods, 532
BRITISH ASSOCIATION: Meeting at York, 146; Proposed Meeting in America, 1883, 16; Preliminary Arrangements, 176, 385; Opening of, 431; the History and Work of the Association, 401; Inaugural Address of the President, Sir John Lubbock, D.C.L., LL.D., F.R.S., 402; New Officers, &c., 432; the Loan Collection of Scientific Apparatus, 432; Excursions, &c., 432: Grants, 433; the Foreign Visitors, 461, 492; Report of the Committee appointed for the Purpose of Investigating the Method of Determining the Specific Refraction of Solids from their Solutions, 462; Report of Committee on Meteoric Dust, 462; Report of Committee on Underground Water Supply, 462; Report on the Earthquakes of Japan, 462; Report of the Committee on Fossil Polyzoa, 463; Report of the Committee on Erratic Blocks. 463; Report on the Thermal Conductivity of Certain Rocks, 463; Report of the Committee on Tidal Observations in the English Channel and the North Sea, 487; Report of the Committee for Underground Temperature, 487; Report of Committee on Mathematical Tables, 488; Report of Committee for Investigation of Timor-lant, 488; Report of Committee on Natural History of Socotra, 488; Report on Caves and Kitchen-Middens at Cappagh, Co. Waterford, 488; Report on the Zoological Station at Naples, 488; Report of the Committee on Rudimentary Science Education, 488; Origin and Functions of the, E. W. Harcourt, 510
Section A (*Mathematical and Physical*).—Opening Address by the President, Sir William Thomson, F.R.S., 433; on the Possibility of the Existence of Intra-Mercurial Planets, by Prof. Balfour Stewart, F.R.S., 463; the Photographic Spectrum of Comet B 1881, by Dr. W. Huggins, F.R.S., 464; the Electrical Discharge through Colza Oil, Dr. A. Macfarlane, 465; on the Electric Conductivity and Dichroic Absorption of Tourmaline, Prof. Silvanus Thompson, 465 on the Application of Electricity to the Localisation of a Bullet in a Wound, W. H. Preece, 465; on the General Coincident between Sun-Spot Activity and Terrestrial Magnetic Disturbance, Rev. T. Howlett, 465; on Artificial Flight, by Frederick W. Brearey, 466; on the Arrestation of Infusorial Life, by Prof. Tyndall, F.R.S., 466; the Sun-Spot Period and Planetary Tides in the Solar Atmosphere, by F. B. Edmonds. 466; on a New Integrating Anemometer, by H, S. Hele Shaw and Dr. Wilson, 467; on a Universal Sunshine Recorder, by G. M. Whipple, 467; on the Calibration of Mercurial Thermometers by Bessel's method, by Prof. Rucker, 467; on the Economy of Metal in Conductors of Electricity, by Sir William Thomson, F.R.S., 489; Illuminating Powers of Incandescent Vacuum Lamps with Measured Potentials and Measured Currents, Sir William Thomson and J. T. Bottomley, 490; an Analysis of Relationships, Dr. A. Macfarlane, 491; on a Microscope with Arrangements for Illuminating the Sub-Stage, by E. Crossley, 491; Observations of Atmospheric Electricity at Kew Observatory during 1880, G. M. Whipple, 491; on Prof. Phillips' Rainfall Observations made upon York Minster, G. J. Symons, F.R.S., 491; on some of Bell and Tainter's Recent Researches and their Consequences, W. Lant Carpenter, 491; on Magnetic Disturbances, Prof. W. G. Adams, F.R.S., 492
Section B (*Chemical Science*).—Opening Address by the President, Prof. A. W. Williamson, F.R.S., 413; on a Process for Utilising Waste Products and Economising Fuel in the Extraction of Copper, J. Dixon, 467; on the Chemical Action between Solids, Prof. Thorpe, F.R.S., 467; Metallic Compounds containing Bivalent Hydrocarbon Radicals, J. Sakurai, 467; on the Siliceous and other Hot Springs in the Volcanic District of New Zealand, W. Lant Carpenter, 467; Note on the Chrome Iron Ore of Japan, Dr. Divers, 468; on the Oxides of Manganese, V. H. Veley, 468; on the Inferences deducible from High Molecular Weights as

exhibited by the Oxides of Manganese, Prof. Odling, F.R.S., 468; on Peppermint Camphor, R. W. Atkinson and H. Yoshida, 468; on the Occurrence of Selenium and Tellurium in Japan, Dr. Divers, 468; on the Sodium Alum of Japan, Dr. Divers, 468; Brewing in Japan, R. W. Atkinson, 468; on the Specific Refraction and Dispersion of Light by Liquids, by Dr. J. H. Gladstone, F.R.S., 468; on the Production of Crystals by the Action of Metals on Carbon Disulphide in Closed Tubes, P. Braham, 468; on the Alleged Decomposition of the Elements, Prof. Dewar, F.R.S., 468; on Manganese Nodules, J. Y. Buchanan, 469; on the Action of Zinc, Magnesium, and Iron on Acidified Solutions of Ferric Sulphate, Prof. T. E. Thorpe, F.R.S., 469; on the Reducing Action of Zinc and Magnesium on Vanadium Solutions, Prof. H. E. Roscoe, F.R.S., 469; on a New Method of Measuring certain Chemical Affinities, A. Tribe, 469; on some Phenomena of the Nature of Chemico-Magnetic Action, W. Thomson, 469; on the Double Iodide of Copper and Mercury, Prof. S. P. Thompson, 469; Alterations of the Properties of Nitric Ferments by Cultivation, R. Warington, 470; on the Fluid Densities of certain Metals, Prof. W. C. Roberts, F.R.S., and T. Wrightson, 470; on Molecular Attraction, F. D. Brown, 470; on the Relative Atomic Weights of Silver, Manganese, and Oxygen, by Prof. Dewar and A. Scott, 470; on the Phosphates of Lime and Ammonia, J. A. Wanklyn, 470; on the Separation of Hydrocarbon Oil from Fat Oils, A. H. Allen, 470; on Bowkett's New Thermography, W. Lant Carpenter, 470; Blowing-Wells near Northallerton, T. Fairley, 473; on the New Metal Actinium, J. S. Phipson, 470; on some Vapour-Density Determinations, Prof. Dewar and A. Scott, 470; on Experiments with Manures on Barley Crops, Ivison Macadam, 470; the Present State of Chemical Nomenclature, Prof. A. W. Williamson, F.R.S., 492; Cellulose and Coal, C. F. Cross and E. J. Bevan, 493; Hydration of Salts and Acids, C. F. Cross, 494; on Colliery Explosions, W. Galloway, 493

Section C (*Geology*).—Opening Address by the President, Dr. A. C. Ramsay, F.R.S., 419; on the Laurentian Beds of Donegal and of other Parts of Ireland, Prof. Edward Hull, F.R.S., 471; Laurentian Rocks in Ireland, G. H. Kinahan, 471, 591; on the Occurrence of Granite *in situ* about Twenty Miles South-West of Eddystone, A. R. Hunt, 471; on the Causes of Volcanic Action, Prof. J. Prestwich, F.R.S., 471; the Connection between the Intrusion of Volcanic Action, Prof. W. J. Sollas, 472; a Restoration of the Skeleton of Archæopteryx, with some Remarks on Differences between the Berlin and London Specimens, Prof. H. G. Seeley, F.R.S., 472; on *Simosaurus pusillus* (Fraas), a Step in the Evolution of the Pleseosauria, Prof. H. G. Seeley, F.R.S., 472; Influence of Barometric Pressure on the Discharge of Water from Springs, Baldwin Latham, 472; on some Points in the Morphology of the Rhabdophora, John Hopkinson, 472; the Glacial Deposits of West Cumberland, J. D. Kendall, 473; on "Flots," J. R. Dakyns, 473; on the Lower Cambrian of Anglesea, Prof. J. McK. Hughes, 473; on the Knarled Series of Amloch and Holyhead in Anglesea, Prof. J. McK. Hughes, 473; Notes on the Subsidences above the Permian Limestone between Hartlepool and Ripon, A. G. Cameron, 473; the Great Plains of Northern India not an Old Sea Basin, W. T. Blanford, F.R.S., 473; the Gold Fields and Quartz Outcrops of Southern India, William King, 473; Geology of the Island of Cyprus, R. Russell, 473; on some Sections in the Lower Palæozoic Rocks of the Craven District, J. E. Marr, 473; Life in Irish and other Laurentian Rocks, C. Moore, 473; the Subject Matter of Geology and its Classification, Prof. W. J. Sollas, 474; Exploration of a Fissure in the Mountain Limestone at Raygill, James W. Davis, 474; on the Zoological Position of the Genus Petalo-rynchus, J. W. Davis, 474; on the Microscopic Structure of Coal from East Scotland and South Wales, Prof. Williamson, F.R.S., 474; on an International Scale of Colour for Geological Maps, W. Topley, 474; on the Rhætics of Notts, E. Wilson, 474; Notes on the Cheshire Salt Fields, C. E. De Rance, 474; on the Strata between the Chillesford Beds and the Lower Boulder Clay, Prof. Prestwich, 474; on the Upper Bagshot Sands of Hordwell Cliff, Hampshire, E. B. Tawney, 475; a Preliminary Account of the Working of Dowkerbottom Cave in Craven during August, 1881, E. B. Poulton, 494; on Asteromilia Readi, a New Species of Coral from the Oligocene of Brockenhurst, Prof. Martin Duncan, F.R.S., 495; on the Formation of Coal, E. Wethered, 495; on the Palæozoic Rocks of North Devon and West Somerset, W. A. E. Ugsher, 495; on the Characters of the "Lansdown Encrinite" (*Millericrinus Pratti*), P. Herbert Carpenter, 495; on the Two Types of Cambrian Beds of the British Isles, Prof. E. Hall, F.R.S., 496; on a discovery of Fossil Fishes in the New Red Sandstone of Nottingham, E. Wilson, 496; Glacial Sections at York and their Relations to the later Deposits, J. E. Clarke, 496; the Devonio-Silurian Formation, Prof. E. Hull, F.R.S., 496; the Glacial Geology of Central Wales, Walter Keeping, 498; on the Lower Kueper Sandstone of Cheshire, A. Strachan, 498

Section D (*Biology*).—Opening Address by the President, Prof. Richard Owen, C.B., F.R.S., 421

Department of Anthropology.—Opening Address by Prof. H. Flower, F.R.S., 436; Geographical Distribution of Mankind, Miss A. W. Buckland, 500; the Papuans and the Polynesians, Staniland Wake, 500; Excavations in the Earthwork called Ambresbury Bank in Epping Forest, Gen. Pitt-Rivers, 500; on the Stature of the Inhabitants of Hungary, Dr. Beddoe, 500; on the Physical Characters and Proportions of the Zulus, Mr. Bloxam, 500; on the Animism of the Indians of British Guiana, E. F. im Thurn, 500

Department of Anatomy and Physiology.—Opening Address by Prof. J. Burdon-Sanderson, LL.D., F.R.S., 439; on the Conario-hypophysial Tract, or the Pineal and Pituitary Glands, by Prof. Owen, C.B., F.R.S., 498; on the Development of Colour Sense, Dr. Montague Lubbock, 499; Function of the Two Ears in the Perception of Space, Prof. S. P. Thompson, 499; on the Incubation of the Indian Python, W. H. Forbes, 499; on the Structure and Homologies of the Suspensory Ligament of the Fetlock in the Horse, Ass, Ox, Sheep, and Camel, Dr. D. J. Cunningham, 500, 521

Department of Zoology and Botany.—On the Sense of Colour in Animals, Sir John Lubbock, F.R.S., 500; on the mode in which the Seed of Stipa buries itself in the Ground, Sir John Lubbock, F.R.S., 501; on the Constancy of Insects in visiting Flowers, A. W. Bennett, 501; on Jurassic Birds and their Allies, Prof. O. C. Marsh, 501; on the Anatomy and Classification of the Petrel, W. A. Forbes, 501

Section F (*Geography*).—Opening Address on Geographical Distribution by Sir J. D. Hooker, F.R.S., 443

Section G (*Mechanical Science*).—Opening Address by Sir W. Armstrong, D.C.L., F.R.S., 449

British Medical Association, 290

British Museum, the Geographical Department of, 178; Catalogue of Birds, 239

British Mosses and Hepatics, London Catalogue of, 211

Broadhouse (John), the Students' Handbook of Acoustics, 580

Broca (Dr.), Monument to the Memory of, 108

Brown (Robert), Countries of the World, 306

Browne (Walter R.), on the Relative Value of Tidal and Upland Rivers, Estuaries, and Harbours, at the Institute of Civil Engineers, 17

Browne (W. J.), Botany for Schools and Science Classes, 235

Brownell (J. T.), Wasps, 484

Bruhns (Prof.), Death of, 290

Brunton (T. Lauder, F.R.S.), "Bible and Science," Geo. J. Romanes, F.R.S., 332

Brutel de la Rivière (C. J. E.), Hot Ice, 4

Buchan (Alexander), Weather and Health of London, 143, 173

Bulletin of the United States Geological and Geographical Survey of the Territories, 45

Bulletin de l'Academie Royale des Sciences de Belgique, 94, 278, 400, 480, 600

Bulletin de l'Academie Imperial des Sciences de St. Petersbourg, 94

Bunsen-Pump, the So-called, Dr. H. Sprengel, 53

Buoyancy of Bodies in Water, Dr. W. Curran, 166; Dr, John Rae, F.R.S., 191

Burnham Beeches, 87

Burmeister (Dr. H.), Description Physique de la Republique Argentine d'après des Observations personelles et Etrangères, 209

Burton (Chas. E.), the Comet, 221; Integrating Anemometer 510, 582

Butterflies of Europe, Henry Chas. Lang, M.D., 177, 283
Buxton Thermal Spring, Analyses of the Mud deposited round the, 542

Calabar Bean as a Preservative, Dr. E. MacDowel Cosgrave, 583
Calorimeter, a Simple Form of, 41
Cambridge: Annual Report on the Museums, 93; Observatory Report, 158
Canadian Naturalist, 133
Cantor Lectures, 40
Caoutchouc, Electric Expansion in, 180
Cape, Thunder Storm at the, C. Tomlinson, 166
Capper (Thomas), Six-Fingered Family, 166
Capron (J. Rand): Optical Phenomena, 284; the Comet, 285, 380, 430; Comet *b* 1881, 431
Capsella Bursa-Pastoris, F. W. Hutton, 188
Carbon, the Galvanic Properties of, 294
Carbon Battery, a New, 387
Carbonic Acid Gas, Not Free in Sea Water, Prof. P. Martin Duncan, F.R.S., 213
Carnelley's (Dr.) Experiment with Mercuric Chloride, J. B. Hannay, 77
Carnot, Statue to, 265
Carpenter (Wm. Lant), Telephones in New Zealand, 141

Terrestrial Climates, the Secular Inequalities in, depending on the Perihelion Longitude and Eccentricity of the Earth's Orbit, Rev. Dr. Haughton, F.R.S., 93
Teversal, Nottinghamshire, Earthquake at, 427
Thames Valley, Palæolithic Implements in the, at and near London, their comparative numbers, Worthington G. Smith, 308
Thebes, Discovery of Implements near, 108; Mummies from, 291
Theorem, Kinematical, Geo. M. Minchin, 557, 583
Theorem, Kinematical, Prof. Joseph Lamor, 605; C. Leudesdorf, 605
Theory of Descent, Studies in the, Dr. Aug. Weismann, Alf. R. Wallace, 457
Thermal Conductivity of certain Rocks, 463
Thermometers, Kew Standard, Suggestion relating to, L. Waldo, 100
Thermometers, the Alteration of the Zero of, 294
Thompson (Prof. Silvanus P.), Conservation of Electricity, 78; Doctrine of the Conservation of Electricity, 164; Red Rainbows, 459; the Electric Conductivity and Dichroic Absorption of Tourmaline, 465
Thomson (J.), "To the Central African Lakes and Back," 353
Thomson (J. J.), Prof. Rowland's New Theory of Magnetic Action, 204
Thomson (Sir William, F.R.S.), on Vortex Rings, 47; Storage of Electric Energy, 137, 156; on the Sources of Energy in Nature for the Production of Mechanical Effect, 433; the Proper Proportions of Resistance in the Working Coils, the Electro-Magnets, and the External Circuits of Dynamos, 526
Thorell (Dr. T.), Studi sui Ragni Malesi e papuani, 482
Thorpe (Prof., F.R.S.), Chemical Action between Solids, 467
Thought-Reading, 210, 211; Rev. Geo. Henslow, 164, 335; Geo. J. Romanes, F.R.S., 171; Dr. W. B. Carpenter, F.R.S., 188; Geo. B. Merriman, 284
Thunder, Birds Singing during, J. Shaw, 101
Thunder Storm at the Cape, C. Tomlinson, 166
Tidal and Upland Rivers, Estuaries and Harbours, on the Relative Value of, Waller R. Browne, at the Institute of Civil Engineers, 17
Tidal Currents *versus* Wind Waves, G. H. Kinehan, 460
Tide-Predicting Machines, Rev. F. Bashforth, 53
Tiflis, Archæological Congress at, 599
Tomlinson (C.), Thunder Storm at the Cape, 166
Tomlinson (C., F.R.S.), Panizzi and the Royal Society, 355
Tomlinson (Herbert), on Elasticity, Young's Modulus, 70
Tooth-Ornament, H. O. Forbes, 102
Tourmaline, the Electric Conductivity and Dichroic Absorption of, Prof. S. P. Thompson, 465
Tozer (Rev. H. F.), Kiepert's Manual of Ancient Geography (translation), 3
Train Stopped by Caterpillars, 65
Tramcar Driven by Electricity, 147, 164, 426, 476
Transactions, Seismological Society of Japan, 589
Transit of Mercury, November 7, 1881, 18
Transit of Venus, 1882, 41
Transylvanian Carpathian Club, 246
Trevandrum Observatory, Prof. P. Soondrem Pillay, 124
Trimen's Journal of Botany, 158, 376
Trocadéro, Singular Telegraphic Experiment at the, 385
Trouve's Experiments on the Propulsion of Vessels by Electricity, 109
Tschermak (Dr. G.), Lehrbuch der Mineralogie, W. J. Lewis, 355
Tschingel, Another Rift opened in the, 566
Tubercle, the Micrococcus of, Dr. C. Creighton, 604
Tunnel, Arlberg, Boring of the, 291
Tunnel, Proposed New Alpine, 427
Tupman (Major G. L.), a Meteor, 189
Tweeddale (Arthur, Marquis of, F.R.S.), the Ornithologica Work of, 603
Tylor (Edward B., F.R.S.), "Anthropology," A. B. Wallace, 242; Australian Aborigines: the Languages and Customs of several Tribes of Aborigines in the Western District of Victoria, Australia, James Dawson, 529
Tyndall (Prof. W., F.R.S.), on the Attitude of Carlyle towards Modern Science, 15; on the Arrestation of Infusorial Life, 466

U Cephei, Ceraski's Variable Star, 248, 542, 591
United States Entomological Commission for the Years 1878 and 1879, Second Report of, 99; Chinese in, 225; Fisheries

of, 265; Earthquake at Bangor Maine, 314; United States, *see also* America, &c.
University Intelligence, 23, 45, 69, 93, 117, 133, 158, 180, 206, 231, 504, 575, 599, 624
Upton (Major R. D.), Gleanings from the Desert of Arabia, Prof. W. Robertson Smith, 209

Vaccination amongst the Chinese, 503
Vacua, High, the Green Phosphorescence in, 66
Van, Earthquake in, 147; Capt. Emilius Clayton, 189, 238
Variable Stars, 65, 110, 542; J. Birmingham, 164; χ Cygni, 277, 285; Ceraski's U Cephei, 248, 542, 591
Veeder (M. A.), Formation of Cumuli, 5
Velocity of Light, on the, Lord Rayleigh, F.R.S., 382; Albert A. Michelson, 460; W. H. Macaulay, 556
Velocity of White and Coloured Light, Experimental Determination of the, Dr. J. Young, F.R.S., and Prof. G. Forbes, 303
Venice, Geographical Congress at, 295
Venn (John), Symbolical Logic, 140, 233, 284
Venus, Transit of, 1882, 41; Near Approach of to, 107 Tauri, 278; Transit of, International Commission for the Next, 589
Verhandlungen der k.k. Zoologisch-botanischen Gesellschaft in Wien, 46
Verhandlungen des Naturhistorischen Vereins der Preussischen Rheinlande und Westfalens, 600
Vertebrate Fauna of Yorkshire, Wm. Eagle Clarke, and W. Denison Roebuck, 379
